Subject: Re: PVAC-NMEP Draft M&E Framework submission

Dear PM Sir,

I have reviewed the PVAC M&E Framework and would like to commend everyone involved in its development. A detailed review shows that the framework is well-positioned to track inputs, outputs, and long-term impacts. It demonstrates adherence to the intended goals and objectives of the PVA initiative under the IMPACT Project.

I suggest a minor addition regarding the platform for data management, specifically the inclusion of NMDR (Please see as attached).

Please feel free to communicate your approval of the framework.

Thank you.

Dear Dr. Phillip,

I trust this email finds you well.

Please find attached the draft M&E framework for NMEP's review. It is one of our deliverables under project management.

Please can you assist to forward all required reviewers on your end.

Thank you and best regards,

Nnenna
